

CUSTOM CARTOONS SUBJECT SHEET

Please print legibly to eliminate any misinterpretations! A copy should be printed for your files and records. Max Gathings can work off a single, bad content, black background photo but for best results he prefers three photos (they will be returned to you with your finished art): Frontal, $\frac{3}{4}$, and profile view. The photo(s) should be in black and white but color will work, the background should be preferably white or light. There should be enough contrast on it (not too light, not too dark). The photo size should be as large as possible (at least 3 inches by 5 inches). Just put N/A or leave blank if any information line is not applicable to your intended cartoon drawing. After printing this form it should be mailed, faxed or e-mailed to Caddylak Graffix! We will send it back to you with a final price, instructions and additional information for your approval before cartoon is created.
